Dischi flessibili costituiti da uno strato di abrasivo a doppia resinatura su supporto in fibra vulcanizzata, per smerigliatura e finitura con macchine portatili a 80 m/s

Flexible sanding discs manufactured with a resin/resin coating on vulcanised fibre backing, for grinding and finishing operations on 80 m/s portable machines.

#### A - Corindone rosso bruno / Aluminium Oxide (brown)

Per impiego su ferro ed acciai normali.

For use on iron and ordinary steel.

#### A SUPER 314 - Corindone rosso bruno pregiato

High quality Aluminium Oxide (brown)

Per impiego su ferro ed acciai normali.

For use on iron and ordinary steel.

#### Z 414 - Zirconio blu / Zirconia oxide (blue)

Per impiego su inox ed acciai legati.

For use on stainless steel and high-tensile steel.

#### Z PRO - Zirconio blu additivato / Filled Zirconia oxide (blue)

Per impiego su inox ed acciai legati. Alta taglientza.

For use on stainless steel and high-tensile steel.

High cutting power.

#### CER 760 - Corindone ceramicato / Ceramic Al.Ox.

Per impieghi gravosi su inox, acciai legati, materiali non ferrosi. Alto rendimento, lunga durata.

For heavy application on inox, high tensile steel and non-ferrous metals. High performance and long life.

#### C - Carburo di silicio / Silicon carbide (black)

Per lavorazioni di marmo, pietre e metalli non ferrosi impananti.

For use on stone, marble and highly clogging non-ferrous metals.

N.B.: Utilizzare con platorello / Use with suitable backing pad.
