A36R: Grado tenero. Molatura rapida a freddo, buona finitura, idonea per lamierati leggeri.

Soft degree of hardness. Fast grinding, good finishing of light steel plates without overheating.

9A24R: Grado medio. Molatura rapida, ottima asportazione e versatilità d'uso su ferro e acciai legati.

Medium degree of hardness. Fast grinding, high removal on iron and alloyed steel.

A30S: Grado medio/duro. Buona asportazione e durata su ferro e acciai comuni.

Medium /Hard degree. Good removal and durability on iron and ordinary steel.

A24S: Grado duro. Impiego specifico per lavori pesanti, lunga durata, buona asportazione, particolarmente adatta su macchine ad alta frequenza.

Hard degree. Wide application field for aggressive grinding in heavy working conditions. Long-life wheel with excellent removal capability, especially if used on high-powered machines.

* = Certificazione esente ferro e zolfo disponibile / Certification of non-addition of iron and sulphur compounds available

X30N: Molatura su metalli impananti, ottima su ghisa terrosa.

Recommended for grinding of non-ferrous metals. Excellent for sandy cast-iron

X24S: Molatura su ghise normali, buona durata, ottima su creste e spigoli

Specific grinding wheel for cast-iron, excellent for the grinding of edges and crests.

9A30S/ 9A30R : Molatura specifica di acciai inox, in particolare per i settori alimentare e nucleare.

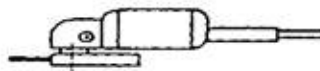

Fast removal grinding on Stainless Steel, especially recommended for applications in the food and nuclear industries.

A46N: Molatura su alluminio, leghe d'alluminio e metalli non ferrosi altamente impananti.

Specific for aluminium, aluminium alloys and high clogging non ferrous-metals.

0A30S: Molatura di acciai e ghise meccaniche in condizioni di lavoro pesanti, ottima su macchine ad alta frequenza.

Long-life grinding wheel suitable for steel alloys and cast-iron grinding in heavy working conditions, recommended on high-powered machines.

00A24T: Molatura di ghise ed acciai in condizioni di lavoro pesanti, lunga durata ed elevata asportazione.

Top performance long-life wheel for aggressive removal of steel alloys and cast-iron in heavy working conditions.

Dischi a Bassa Rumorosità - Noise damping grinding discs
