

## **SPRAY ABRA+ : Trattamento anti-intasamento per abrasivi**

### **SPRAY ABRA+ : Anti-clogging treatment for abrasives**

| AEROSOL        |   |   |  |
|----------------|---|---|-----------------------------------------------------------------------------------|
| ABRA+ (400 ml) | • | 4 |                                                                                   |

Aerosol che prolunga la durata dell'utensile abrasivo; agisce limitando al minimo gli effetti di intasamento da sovrametallo e deposito di materiale levigato, riducendo il tempo di molatura, diminuendo l'effetto di surriscaldamento. Specifico per lavorazioni su alluminio e leghe, acciai inox, etc. Adatto per nastri abrasivi, dischi lamellari, fibrodischi, dischi velcrati, etc. Non contaminante per le superfici.

Aerosol for a longer lifetime of the abrasive tool ; act minimizing clogging effects due to storage of removed material ,reducing overheating: Specific for aluminium and alloys, stainless steel, etc. Suitable for abrasive belts, flap discs, fibrediscs, velcrum discs, etc. Not polluting for surfaces.

## **Dischi abrasivi semirigidi**

### **Semi-rigid sanding discs**

Per smerigliatura e finitura con macchine portatili a 80 m/s.

For grinding and finishing on 80 m/s portable machines.

### **Ruote abrasive su perno Ømm.6 in Tessuto-non-Tessuto**

Per sbavatura leggera e pulitura di parti, rimozione di ossidazioni e segni lasciati da precedenti lavorazioni su acciai inox, acciai normali o speciali, metalli non ferrosi e loro leghe, alluminio, ghisa, ecc.

### **Non woven flap wheels on Ømm.6 spindle:**

For light deburring and cleaning of parts, removal of oxidization and marks left from previous abrasive operations on stainless steel, ordinary steel, non ferrous metals and their alloys, aluminium, cast iron, etc.

### **Ruote lamellari su perno Ømm.6 miste tela e Tessuto-non-Tessuto:**

L'aggiunta della tela abrasiva conferisce una maggior capacità di asportazione rispetto alla ruota in solo TNT.

### **Interleaved flap wheels made with Non Woven and Abrasive Cloth:**

The additional abrasive cloth conveys a higher removal capability than wheels made with non woven only.

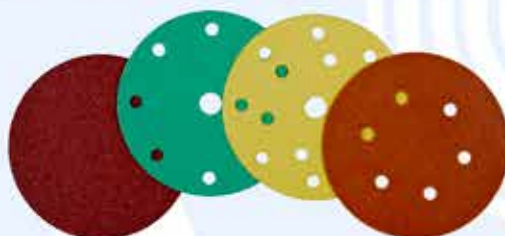

### Dischi abrasivi velcrati con e senza fori
